

**To be eligible for the Earth Day Art Contest prize(s), your art/sculpture must comply with the following requirements:**

- At least 95% of the sculpture must be constructed using primarily something previously used that would normally be thrown away or recycled after it is used (Examples: plastic bags, cardboard, plastic bottles, soda cans, newspaper, medical supplies).
- Glue, nails, adhesives, and other materials needed to hold the sculpture together are permissible; these items should not be a focal point. Consider using only repurposed materials to hold your piece together (twist ties, old string, etc.).
- Make sure all repurposed materials are visible (not covered up). Do not use paint, crayons, or markers on the sculpture. Judges will want to see the actual recyclables and other materials used in the sculpture.
- Sculpture must be stable enough to SAFELY sit or stand on its own. Sculpture should not be required to hang on walls.
- All materials used in the construction of the sculpture must be clean, odor-free, non-perishable, non-toxic, non-gas emitting, and non-bio hazardous.
- Sculpture must be easily portable without falling apart. All parts must be permanently fixed.
- Sculptures may NOT contain any material that may be offensive. All sculptures must be “family friendly” (nothing obscene or offensive)
- All sculptures must have a title. Be creative!
- Producers of this contest reserve the right to disqualify any entry that does not adhere to these rules and information contained within this document.
